DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 1-5 of 46)

Jeff J. Wright**+300**

S6: P7 | 387 pts | 4W

Nashville S2: P4 (led 109 laps) | Nashville S5: P1 - WIN (led 79 laps)

The undisputed Nashville Superspeedway favorite in SNR history. Wright led 109 laps at Nashville S2 before finishing P4, then returned in S5 and won outright leading 79 of 140 laps. He is the only driver in this field who has won at Nashville and dominated both visits from a laps-led standpoint. He now carries 19 career SNR intermediate wins - the most all-time - with a 7.4 average finish. Fresh off a Charlotte victory last week, Wright enters Race 13 as the clear favorite with overwhelming Nashville credentials.

Joshua Banks**+500**

S6: P8 | 369 pts | 1W

Nashville S2: P1 - WIN (led 3 laps) | Nashville S5: P4 (led 22 laps)

The only other active driver with a Nashville Cup win. Banks won the S2 race leading the final 3 decisive laps, then returned in S5 and finished P4 leading 22 more laps. Two Nashville starts, two top-4 finishes - the most consistent Nashville record in the field behind only Wright. He has 7 career SNR intermediate wins and sits 8th in S6 points with 1 win this season.

A.J. Stravato**+600**

S6: P1 | 460 pts | 3W

Nashville S2: P12 | Nashville S5: P5

The S6 championship leader (460 pts, 3W) with two Nashville starts on record. He finished P12 in S2 and P5 in S5, showing steady improvement at this track. No laps led at Nashville but his current form is impossible to ignore - Stravato has won 3 races this season and leads the standings by 17 points. A Nashville win would put serious distance between him and the championship field.

Bailey Turner**+700**

S6: P2 | 443 pts | 2W

Nashville S2: P2 | Nashville S5: No start

Finished P2 at Nashville S2 in his only Superspeedway appearance at this track. He carries 8 career SNR intermediate wins and a 7.9 average finish - second only to Jeff Wright on that track type. Currently 2nd in S6 standings with 443 points and 2 wins, Turner enters Nashville with a proven podium result and championship motivation.

Adam Cabot**+900**

S6: P19 | 251 pts | 0W

Nashville S2: P3 | Nashville S5: No start

Finished P3 at Nashville S2 in his only Nashville start - a clean, efficient run without leading a lap. He has 5 career intermediate wins and a 7.7 average finish, the second-best intermediate average in the field. Limited to 7 S6 starts this season but elite when present. His smooth intermediate style suits Nashville's 1.33-mile concrete surface well.

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 6-10 of 46)

Kenny Kibbey**+1100**

S6: P3 | 426 pts | 0W

Nashville S2: No start | Nashville S5: P7 (led 6 laps)

Made his Nashville debut in S5 and finished P7 leading 6 laps - a strong first showing at this track. Currently 3rd in S6 standings with 426 points, Kibbey is the most consistent championship threat without a win this season. His clean-running style and proven Nashville presence make him a legitimate top-10 threat in a long race.

J R Shepherd**+1200**

S6: P5 | 400 pts | 0W

Nashville S2: No start | Nashville S5: P18 (led 22 laps)

Led 22 laps at Nashville S5 before finishing P18 - his result dramatically understated his pace that day. In his only Nashville start, Shepherd showed genuine front-running speed. Currently 5th in S6 standings (400 pts), he enters Race 13 with more Nashville-specific credentials than his odds suggest and championship points on the line.

Seth Hatchel**+1400**

S6: P4 | 403 pts | 0W

Nashville S2: No start | Nashville S5: P20 (led 5 laps)

Made his Nashville debut in S5, leading 5 laps and finishing P20 - a forgettable result but he showed enough pace to be in the mix early. Currently 4th in S6 standings with 403 points, Hatchel's championship position keeps him relevant even with a modest Nashville debut. One of the stronger all-around intermediate performers in the field.

Chad Clinger**+1500**

S6: P31 | 172 pts | 0W

Nashville S2: P5 (led 38 laps) | Nashville S5: P17

Led 38 laps at Nashville S2 before finishing P5 - the third-most laps led in that race behind only Wright and McWhorter. Returned in S5 and finished P17 without leading. Two Nashville starts with genuine front-running pace on his first visit. Has 3 career intermediate wins but a volatile 17.4 average finish. When Clinger is on, he can lead and compete for wins.

Chuck Sweeting**+1700**

S6: P13 | 288 pts | 0W

Nashville S2: P13 (led 1 lap) | Nashville S5: P6

Two Nashville starts and steady improvement - P13 in S2 and P6 in S5, completing all laps both times. Tied 13th in S6 points (288) and right on the Chase cutline, Sweeting needs strong results. His back-to-back Nashville finishes show a driver who knows this track and gets better with experience. Better Nashville value than his points standing suggests.

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 11-15 of 46)

Ryan Carwile**+1900**

S6: P22 | 210 pts | 0W

Nashville S2: P18 | Nashville S5: P8

Two solid Nashville appearances - P18 in S2 and a much-improved P8 in S5, completing all laps both times. Like Sweeting, Carwile shows clear improvement from his first Nashville visit to his second. Has 2 career SNR intermediate wins. Modest S6 season overall but his Nashville track record earns him a stronger placement here.

Phillip Brewer**+2000**

S6: P6 | 390 pts | 0W

Nashville S2: No start | Nashville S5: No start

Sixth in S6 standings (390 pts) with no Nashville Superspeedway history to draw from. His odds are driven entirely by consistent season-long form and 3 career intermediate wins. In a race where track history matters heavily, Brewer is purely a points-based play.

Austin Boelke**+2200**

S6: P21 | 230 pts | 0W

Nashville S2: P25 | Nashville S5: P3

Finished P25 at Nashville S2 before bouncing back with a P3 in S5 - a massive improvement showing he learned the track between visits. Led 0 laps in either race but a podium finish is a podium finish. Currently 21st in S6 points. His Nashville improvement arc is an encouraging sign for Race 13.

Elliott Butler**+2500**

S6: P9 | 339 pts | 0W

Nashville S2: No start | Nashville S5: P10

Finished P10 at Nashville S5 in his only Nashville start, completing all 140 laps without leading. Ninth in S6 standings (339 pts) and one of the most consistent performers all season. No dominant Nashville history but his season-long consistency and points position give him a realistic floor.

Andy Telgenhof**+2800**

S6: P20 | 251 pts | 2W

Nashville S2: No start | Nashville S5: No start

Two wins in just 7 S6 starts - dangerous every time he shows up. One career intermediate win. No Nashville Superspeedway history available but his race-winning pace this season cannot be dismissed. High-variance play with proven winning ability in S6.

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 16-20 of 46)

Enathian Ferrada	+3000	S6: P24 195 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history on record. Defending Charlotte winner with a knack for late-race positioning. Limited S6 starts but has shown the ability to win on intermediate tracks when the moment arrives.		
Dakota Floyd2	+3000	S6: P13 288 pts 0W
Nashville S2: P17 Nashville S5: P11		
Two Nashville starts - P17 in S2 and an improved P11 in S5, completing all laps both times. Tied 13th in S6 points (288) and right on the Chase cutline alongside Sweeting. Two Nashville finishes and championship pressure make him a motivated mid-tier entry.		
Rhea Massey	+3200	S6: P23 200 pts 0W
Nashville S2: P8 Nashville S5: No start		
Finished P8 at Nashville S2 in his only Nashville start - a solid result that gives him legitimate track history here. No S5 Nashville appearance. Modest S6 season overall but that P8 finish is real data at this specific track.		
Angelo Hronis	+3200	S6: P12 321 pts 0W
Nashville S2: P22 Nashville S5: No start		
Finished P22 at Nashville S2 in his only Nashville start - limited track history. Currently 12th in S6 points (321) with a Charlotte podium this season. His S6 form carries more weight here than his Nashville history does.		
Justin Richie	+3500	S6: P10 334 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. Tenth in S6 standings (334 pts) and one of the most reliable mid-pack performers all season. Purely a points-based entry here.		

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 21-25 of 46)

Brian Chambliss**+3500**

S6: P35 | 159 pts | 0W

Nashville S2: P11 | Nashville S5: P13

Two Nashville starts - P11 in S2 and P13 in S5, completing all laps both times. One of the more underrated Nashville veterans in the field with consistent finishes across both visits. 35th in S6 points but genuine two-race Nashville experience earns him better odds than his standing alone would justify.

Casey Lakatos**+4000**

S6: P18 | 252 pts | 0W

Nashville S2: P16 | Nashville S5: P15

Two Nashville starts - P16 in S2 and P15 in S5. Consistent mid-pack finisher at Nashville across both visits, completing all laps both times. 18th in S6 points (252). Reliable Nashville presence without a clear path to the front.

Caleb Weekley**+4000**

S6: P11 | 329 pts | 0W

Nashville S2: P15 | Nashville S5: P23

Two Nashville starts - P15 in S2 and P23 in S5. Results went the wrong direction between visits but he has completed laps at this track. 11th in S6 standings (329 pts). Season-long consistency is the stronger argument here than his Nashville history.

Noah Michalski**+4000**

S6: P27 | 188 pts | 0W

Nashville S2: P9 | Nashville S5: No start

Finished P9 at Nashville S2 in his only Nashville start - a solid result that gives him legitimate track credentials. No S5 Nashville appearance. Limited recent S6 activity but that P9 finish at Nashville is genuine track-specific data.

Brandon Wallace**+4500**

S6: P25 | 208 pts | 0W

Nashville S2: P26 | Nashville S5: P14

Two Nashville starts - P26 in S2 and an improved P14 in S5, completing all laps both times. Shows the same improvement arc between Nashville visits as Boelke and Carwile. 25th in S6 points (208). Better Nashville experience than his points suggest.

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 26-30 of 46)

Bryce Shoemaker	+5000	S6: P16 260 pts 0W
Nashville S2: P32 Nashville S5: No start		
Finished P32 at Nashville S2 - an early exit in his only Nashville start. 16th in S6 points (260) with consistent S6 form this season. His odds are driven by S6 standing more than Nashville history.		
Max Kost	+5000	S6: P17 257 pts 0W
Nashville S2: P20 Nashville S5: DNF		
Two Nashville starts - P20 in S2 and a DNF in S5 completing only 35 laps. Mixed Nashville history. 17th in S6 points (257) with consistent mid-pack form all season.		
Christopher Hodges	+5000	S6: P15 267 pts 0W
Nashville S2: No start Nashville S5: P22		
Finished P22 at Nashville S5 in his only Nashville start, completing 139 laps. 15th in S6 points (267). Consistent S6 presence with limited Nashville upside.		
Ben Laughter	+5500	S6: P29 201 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 29th in S6 points with consistent race completion all season. Purely a field-depth entry.		
Stefan Davis	+5500	S6: P28 205 pts 0W
Nashville S2: P29 Nashville S5: P21		
Two Nashville starts - P29 in S2 (DNF at 144 laps) and P21 in S5 completing all 140 laps. Improvement between visits but results remain deep in the field. 28th in S6 points (205).		

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 31-35 of 46)

Matt Shinoski	+6000	S6: P26 196 pts 0W
Nashville S2: No start Nashville S5: P16		
Finished P16 at Nashville S5 in his only Nashville start, completing all 140 laps. Has actual Nashville Superspeedway race experience. 26th in S6 points.		
Rob Hamp	+6000	S6: P30 171 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 30th in S6 points (171). Regular competitor throughout S6 without major results.		
James Lehman	+6000	S6: P41 93 pts 0W
Nashville S2: No start Nashville S5: P12 (led 3 laps)		
Finished P12 at Nashville S5 leading 3 laps - a quietly strong Nashville debut. Led laps and finished inside the top 15 in his only Superspeedway appearance. 41st in S6 points but his Nashville result is better than most drivers ranked above him.		
Reggie Ortega	+6500	S6: P34 163 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 34th in S6 points (163). Charlotte P4 finish in S5 showed intermediate upside but no Nashville data to draw from.		
Broderick Vaclavik	+7000	S6: P31 172 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. Tied 31st in S6 points (172). Consistent field presence without major results this season.		

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 36-40 of 46)

Mikal Jones	+7000	S6: P31 172 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. Tied 31st in S6 points (172). Regular competitor across 11 S6 starts.		
Keith Shoemaker	+7500	S6: P36 153 pts 0W
Nashville S2: P30 Nashville S5: No start		
Finished P30 at Nashville S2 in his only Nashville start, completing 136 laps. One Nashville appearance with a deep result. 36th in S6 points (153).		
Eldon Stewart2	+8000	S6: P38 127 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 38th in S6 points (127). Limited recent impact this season.		
Logan Threlkeld	+8000	S6: P48 26 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 48th in S6 points (26) across just 3 starts. Very limited S6 data.		
Tim Shinoski	+8500	S6: P37 148 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 37th in S6 points (148). Regular mid-field competitor without Nashville track experience.		

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 41-45 of 46)

Bryan Dehn	+9000	S6: P42 89 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 42nd in S6 points (89) across 4 starts. Very limited S6 activity.		
Justin Carey2	+9000	S6: P39 100 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 39th in S6 points (100) across 5 starts. Limited S6 participation.		
John Seniw	+9000	S6: P40 95 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 40th in S6 points (95) across 8 starts. No Nashville data to draw from.		
Kyle Peacock	+9500	S6: P44 74 pts 0W
Nashville S2: No start Nashville S5: No start		
No Nashville Superspeedway history. 44th in S6 points (74) across 3 starts. Very limited data overall.		
Derek M Garrison	+9500	S6: P45 61 pts 0W
Nashville S2: P10 Nashville S5: No start		
Finished P10 at Nashville S2 in his only Nashville start - a genuinely strong result at this track. Only 2 S6 starts this season limits his relevance, but his Nashville P10 is one of the better historical finishes among deep-field drivers.		

DRIVER ANALYSIS - NASHVILLE SUPERSPEEDWAY (Drivers 46-46 of 46)

Mark McFadyen	+10000	S6: P43 83 pts 0W
Nashville S2: P31 Nashville S5: No start		
Finished P31 at Nashville S2 in his only Nashville start - an early exit completing only 68 laps. 43rd in S6 points (83). Longest odds in the field.
